

IMPORTANT SAFETY INFORMATION

** As with any high pressure attachment, make sure your connections are securely fastened before use. The O-ring on your wands attachment point should also be in good condition.*

** NEVER lean on or apply excessive downward force on the Edgeblaster. Apply just enough pressure to keep the Edgeblaster in contact with the surface being cleaned.*

** The Edgeblaster is NOT a substitute for a grass/garden edging tool. A cleanly edged sidewalk or driveway will provide the best results. If there is excess grass or dirt build up on or close to the edge to be cleaned, the Edgeblaster may bind or not track smoothly.*

** For more information on how to get the most from your Edgeblaster, or to contact customer service please visit our website at www.Edgeblaster.com*

*** LIMITED LIFETIME WARRANTY***

The Edgeblaster is proudly made in America and under normal use should provide a lifetime of reliable service. If for any reason your Edgeblaster should become unusable Pressure Point Solutions will repair or replace it no cost. Abuse, or improper use of the Edgeblaster will VOID this warranty.
